

# MINI PINEXRI-20 IN A BOX

## SOUVENIR CUM COLLECTION

The iconic UTHM first agricultural drone, the Pinexri-20 now comes in a box! The 1:5 scale model is crafted into detail, make it suitable to be on your desk, shelf, or even as a souvenir (corporate or non-corporate). It comes in an acrylic box to make the finishing more exclusive look and presentable. The box dimension is 300mm X 300mm X 20mm.

We are proud of our firstborn. And can't wait to present the next-gen!

# INTERNSHIP @ AVITEX

## COVID-19 DOES NOT STOP US

Even though the nation has been hit hard by the pandemic, our company is still operating as usual. The demand for training, product development, product innovation, and consultation keep on reaching us.

This month, Avitex Solution received 5 internship students from Bachelor of Mechanical Engineering, UTHM. It is time for them to be in the real working environment! If you are looking for placement, too, engineer, designer, programmer, or anything related to engineering and technology (website designer counts too!), drop us your resume at [admin@avitexsolution.com](mailto:admin@avitexsolution.com).
